OCFA

Orange County Fire Authority

April 2023

From the Fire Chief

Dear OCFA Family:

April is a busy month for Ambulance Strike Team deployments and activations as we, which is the 12th year we have been deploying our Ambulance Strike Teams to assist our partner agencies with their emergency medical response needs. Our ambulances, EMS Helicopters, and Ambulance Strike Team personnel have been deployed to Los Angeles County, Ventura County, and Riverside County to assist with their emergency medical response.

Through the year-round ambulance strike team deployments, we have the chance to work and be trained with our partner agencies, which is a great opportunity for our crews to learn how we can better serve our communities. Ambulance strike teams, now into their tenth of a decade, are an integral part of operations, and we will continue to deploy our ambulances and personnel to assist our partner agencies.

Speaking of our partner agencies, we are very fortunate to have the support of our partner agencies when we need assistance.

On Saturday, February 11, 2023, Aid and Rescue, Inc., Emergency Medical Services, and Lance Trauma, collaborated with OCFA to provide a Tactical Medical Training for our Tactical Medic personnel. This training was a great opportunity for our Tactical Medic personnel to work with our partner agencies and learn how we can better serve our communities when we are called upon to assist our partner agencies.

The 12th annual Ambulance Strike Team deployment was a great opportunity to continue with the training we began in our Tactical Medic training. We are very fortunate to have our partner agencies assist us with our training and we are very fortunate to have our partner agencies assist us when we need assistance.

Thank you to our partner agencies for your assistance and support. We are very fortunate to have your support.

Thank you to our partner agencies for your assistance and support. We are very fortunate to have your support.

Sincerely,

Brian Fennessy
Fire Chief
