Planning and Development Services Section

Optional Field Plan Review of Fire Sprinkler Systems (OFPRESS)

Project Name: _____ **Date:** _____
Project Address: _____ **Suite #:** _____
City: _____ **SR#:** _____

Do the plans and scope of work meet the following criteria?

Yes No

- The work consists of 25 or fewer fire sprinklers. Fee code PR630.
- The work is within a light hazard occupancy.
- The work uses a maximum of one mechanical tee per branch line.
- The work consists of one-for-one fire sprinklers per outlet.
- The current OCFA fire sprinkler notes are on the plans.

If any of the boxes are marked “no,” then this project does not meet the criteria for a Field Plan Review and must be submitted for plan review.

A plan complying with NPFA 13, 2002 edition and this form shall be at the job site. An OCFA Service Request form (SR) shall be completed and paid for prior to the inspection. The SR shall be at the job site. Call (714) 573-6150 for inspection. 48 hours notification is required prior to inspection.

By signing below the applicant certifies that all the above conditions apply to their project. If conditions are found to not comply, a plan review may be required and additional fees will be required.
