### Discussion items:

- Committee member Laser requested that BC Anthony Espinoza, SAFD, be entered into minutes as a qualified STEN. Committee member Laser has independent recollection of previous approval (grandfathered in 2005). BC Espinoza is currently in ROSS and responding as a STEN. Committee member Messer stated that documentation needs to be turned in at next meeting. The committee concurred.
- Committee member Ganger stated that the Laguna Beach Fire Chief is reluctant to certify 200 level positions. He is asking the 300 Peer Review Committee to review their applications. Committee Chair Nevarez recommended that the committee deny the request and require local agencies to certify their own 200 level positions. The committee concurred.
