ORDINANCE NO. 2910

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GARDEN GROVE
AMENDING TITLE 18 OF THE GARDEN GROVE MUNICIPAL CODE AND ADOPTING BY
REFERENCE THE FOLLOWING PRIMARY CODES WITH CERTAIN AMENDMENTS,
DELETIONS, AND ADDITIONS THERETO: CALIFORNIA BUILDING CODE, 2019
EDITION; CALIFORNIA RESIDENTIAL CODE, 2019 EDITION; CALIFORNIA
ELECTRICAL CODE, 2019 EDITION; CALIFORNIA MECHANICAL CODE, 2019
EDITION; CALIFORNIA PLUMBING CODE, 2019 EDITION; CALIFORNIA ENERGY
CODE, 2019 EDITION; CALIFORNIA HISTORICAL BUILDING CODE, 2019 EDITION;
CALIFORNIA FIRE CODE, 2019 EDITION; CALIFORNIA EXISTING BUILDING CODE,
2019 EDITION; CALIFORNIA GREEN BUILDING STANDARDS CODE, 2019 EDITION;
CALIFORNIA REFERENCED STANDARDS CODE, 2019 EDITION; AND CERTAIN
SECONDARY CODES INCLUDING THE INTERNATIONAL PROPERTY MAINTENANCE
CODE, 2018 EDITION, AS PUBLISHED BY THE INTERNATIONAL CODE COUNCIL;
AND THE INTERNATIONAL SWIMMING POOL AND SPA CODE, 2018 EDITION, AS
PUBLISHED BY THE INTERNATIONAL CODE COUNCIL.

City Attorney Summary

This Ordinance adopts and amends the 2019 Editions of the California
Building, Residential, Plumbing, Electrical, Mechanical, Energy, Historical
Building, Fire, Existing Building, Green Building, and Referenced Standards
Codes, adopted by the State of California. This Ordinance further adopts
the 2018 Editions of the International Property Maintenance and
International Swimming Pool and Spa Codes.

A. RECITALS.

(i) Article 2 of Chapter 1 of Part 1 of Division 1 of Title 5 of the California
Government Code (§§ 50022.1 et seq.) authorizes the adoption, by reference, of the
the California Electrical Code, 2019 Edition; the California Mechanical Code, 2019
Edition; the California Plumbing Code, 2019 Edition; the California Energy Code, 2019
Edition; the California Historical Building Code, 2019 Edition; the California Fire Code,
2019 Edition; the California Existing Building Code, 2019 Edition; the California Green
Building Standards Code, 2019 Edition; and the California Referenced Standards
Code, 2019 Edition as adopted into the California Code of Regulations, Title 24, Parts
2 through 6 and Parts 8 through 12 respectively (collectively, the "California Building
Standards Code"); the International Property Maintenance Code, 2018 Edition; and

(ii) Pursuant to the provisions of the California Health and Safety Code
Section 17958, 17958.5 and 17958.7, it is determined that the amendments of
building standards within the California Building Standards Code in this Ordinance
are reasonably necessary because of local climatic, geological, or topographical
conditions as more particularly identified in Section 7 of this Ordinance.
Garden Grove City Council
Ordinance No. 2910
Page 2

(iii) Adoption by reference of those additional Uniform Codes is not subject to Sections 17958, 17958.5 and 17958.7 of the California Health and Safety Code.

(iv) A duly noticed public hearing, as required by California Government Code Section 50022.3, has been conducted and concluded prior to the adoption of this Ordinance.

(v) All legal prerequisites to the adoption of this Ordinance have occurred.

B. ORDINANCE

NOW, THEREFORE, the City Council of the City of Garden Grove does hereby find, determine and ordain as follows:

SECTION 1: Title 18 of the Garden Grove Municipal Code, entitled Building Codes and Regulations, of the City of Garden Grove is hereby amended as set forth herein, provided that said amendments shall not apply to, or excuse any violation thereof occurring prior to the effective date of this Ordinance and provided further that the California Building Standards Code and Uniform Codes as adopted by reference and amended by Ordinance No. 2876 of this City shall continue to be applicable to construction for which permits have been issued prior to the effective date of this Ordinance.

SECTION 2: Chapter 18.04 of Title 18 of the Garden Grove Municipal Code is hereby repealed and replaced in its entirety to read as follows:

Chapter 18.04

CODES ADOPTED BY REFERENCE

Section:
18.04.010 Codes Designated — Filing.

18.04.010 Codes Designated — Filing.

Council; California Historical Building Code, 2019 Edition, as published by the
International Code Council; California Fire Code, 2019 Edition, based on the 2018
International Fire Code as published by the International Code Council, including
appendices B, BB, C, and CC; California Existing Building Code, 2019 Edition,
based on the 2018 International Existing Building Code as published by the
International Code Council; California Green Building Standards Code, 2019
Edition, as published by the International Code Council; and California Referenced
Standards Code, 2019 Edition, as published by the International Code Council as
adopted into the California Code of Regulations, Title 24, Parts 2 through 6, and
8 through 12 respectively; International Property Maintenance Code, 2018 Edition
as published by the International Code Council, and International Swimming Pool
and Spa Code, 2018 Edition as published by the International Code Council, are
hereby adopted by reference as the Building Codes and Regulations of the City of
Garden Grove, together with amendments set forth in Chapters 18.12, 18.14,
18.24 and 18.32 of this Title.

SECTION 3: Chapter 18.12 of Title 18 of the Garden Grove Municipal Code is hereby
repealed and replaced in its entirety to read as follows:

Chapter 18.12

BUILDING CODE

Sections:
18.12.010 Section 101.1 Amended — Title.
18.12.020 Section 113 Amended — Board of Appeals.
18.12.030 Section 105.2 Amended — Work exempt from permit.
18.12.040 Section [F]903.2 Amended — Where required.
18.12.050 Table 1505.1 Amended — Roofing Classification.
18.12.060 Section 1505.1.3 Amended — Roof coverings within all
other areas.

18.12.010 Section 101.1 Amended — Title. Section 101.1 is hereby
amended to read as follows:

101.1 Title. These regulations shall be known as the Building Code of
the City of Garden Grove, hereinafter referred to as "this Code."

18.12.020 Section 113 Amended — Board of Appeals. Section 113
(including subsections) is hereby amended and restated to read as follows:

113 Board of Appeals. The Administrative Board of Appeals for the
City shall hear and decide appeals of orders, decisions or determinations
made by the Building Official relative to the application and
interpretations of the Building Codes and Regulations of the City of
Garden Grove including, without limitation, this Code. Refer to Title 2,
Chapter 2.54, of this Code.
18.12.030 Section 105.2 Amended — Work exempt from permit. Item 2 under Building is hereby amended to read as follows:

2. Masonry and/or concrete fences not over three (3) feet high and other fences not over seven (7) feet high.

18.12.040 Section [F]903.2 Amended — Where required. Section [F]903.2 is hereby amended by adding the following after the first paragraph:

Notwithstanding any other provisions in this Code, approved automatic sprinkler systems shall be installed and maintained in accordance with the latest edition of NFPA Standard 13 throughout all new buildings or structures, regardless of fire walls, with a gross floor area of 6,000 square feet or more, or with a total height of 55 feet or more above grade, or containing three or more stories.

Buildings or structures which presently exceed 6,000 square feet of floor area constructed prior to the adoption of this Code, upon or to which any alteration or additions are to be made which would add more than 2,000 square feet to the existing square footage of this building, shall have automatic sprinklers installed, as required herein and above.

Buildings or structures which presently do not exceed 6,000 square feet of floor area, to which any alterations or additions are made, and after such alterations or additions the floor area will exceed 8,000 square feet, shall have automatic sprinkler systems installed, as required herein and above. (Balance of Section to remain unchanged.)

18.12.050 Table 1505.1 Amended — Roofing Classification. Table 1505.1 is hereby amended by the deletion of Table 1505.1 and the addition of a new Table 1505.1 thereto to read as follows:

<table>
<thead>
<tr>
<th>IA</th>
<th>IB</th>
<th>IIA</th>
<th>IIIB</th>
<th>IIIA</th>
<th>IIIB</th>
<th>IV</th>
<th>VA</th>
<th>VB</th>

<td>B</td>
<td>B</td>
<td>B</td>
<td>B</td>
<td>B</td>
<td>B</td>
<td>B</td>
</tr>
</tbody>
</table>

For SI: 1 foot = 304.8mm, 1 square foot = 0.0929m²

a. Unless otherwise required in accordance with Chapter 7A.

18.12.060 Section 1505.1.3 Amended — Roof coverings within all other areas. Section 1505.1.3 is hereby amended by the deletion of the entire section and the addition of a new section thereto, to read as follows:
1505.1.3 Roof coverings within all other areas. The entire roof covering of every existing structure where more than 50 percent of the total area is replaced within any one-year period, the entire roof covering of every new structure, and any roof covering applied in the alteration, repair or replacement of the roof of every existing structure, shall be a fire-retardant roof covering that is at least Class 3.

SECTION 4: Chapter 18.14 of Title 18 of the Garden Grove Municipal Code is hereby repealed and replaced in its entirety to read as follows:

Chapter 18.14

RESIDENTIAL CODE

Sections:

18.14.010 Section R101.1 Amended — Title. Section R101.1 is hereby amended to read as follows:

R101.1 Title. These provisions shall be known as the Residential Code of the City of Garden Grove, and shall be cited as such and will be referred to herein as "this Code."

18.14.020 Section R112 Amended — Board of Appeals. Section R112 is hereby amended and restated to read as follows:

R112 Board of Appeals. The Administrative Board of Appeals for the City shall hear and decide appeals of orders, decisions or determinations made by the Building Official relative to the application and interpretations of the Building Codes and Regulations of the City of Garden Grove including, without limitation, this Code. Refer to Title 2, Chapter 2.54, of this Code.

18.14.030 Section R902.1 Amended — Roof covering materials. Section R902.1 is hereby amended to read as follows:

R902.1 Roofing covering materials. Roofs shall be covered with materials as set forth in Sections R904 and R905. A minimum Class A or B roofing shall be installed in areas designated by this section or where the edge of the roof
is less than 3 feet from a lot line. Class A and B roofing required by this section to be listed shall be tested in accordance with UL 790 or ASTM E 108.

Exceptions:
1. Class A roof assemblies include those with coverings of brick, masonry and exposed concrete roof deck.
2. Class A roof assemblies include ferrous or copper shingles or sheets, metal sheets and shingles, clay or concrete roof tile, or slate installed on noncombustible decks.
3. Class A roof assemblies include minimum 16 ounces per square foot copper sheets installed over combustible decks.
4. Class A roof assemblies include slate installed over underlayment over combustible decks.

18.14.040 Section R902.1.3 Amended - Roof coverings in all other areas.
Section R902.1.3 is hereby amended to read as follows:

R902.1.3 Roof coverings in all other areas. The entire roof covering of every existing structure where more than 50 percent of the total roof area is replaced within any one-year period, the entire roof covering of every new structure and any roof covering applied in alteration, repair or replacement of the roof of every existing structure, shall be a fire-retardant roof covering that is at least Class B.

18.14.050 Section R902.2 Amended — Fire-retardant-treated shingles and shakes. The first paragraph of Section R902.2 is hereby amended to read as follows:

R902.2 Fire-retardant-treated shingles and shakes. Fire-retardant-treated wood shakes and shingles are wood shakes and shingles complying with UBC Standard 15-3 or 15-4 which are impregnated by the full-cell vacuum-pressure process with fire-retardant chemicals, and which have been qualified by UBC Standard 15-2 for use on Class A or B roofs. Fire-retardant-treated wood shakes and shingles shall comply with ICC-ES EG107 and with the weathering requirements contained in Health and Safety Code Section 13132.7 (j). Each bundle shall bear labels from an ICBO accredited quality control agency identifying their roof-covering classification and indicating their compliance with ICC-ES EG 107 and with the weathering requirements contained in Health and Safety Code Section 13132.7(j).

SECTION 5: Chapter 18.24 of Title 18 of the Garden Grove Municipal Code is hereby repealed and replaced in its entirety to read as follows:

Chapter 18.24

PLUMBING CODE
Chapter 22
Combustible Dust-Producing Operations

Chapter 22, Combustible Dust-Producing Operations, is adopted in its entirety without amendments.

Chapter 23
Motor Fuel-Dispensing Facilities and Repair Garages

Chapter 23, Motor Fuel-Dispensing Facilities and Repair Garages, is adopted in its entirety without amendments.

Chapter 24
Flammable finishes

Chapter 24, Flammable Finishes, is adopted in its entirety without amendments.

Chapter 25
Fruit and Crop Ripening

Chapter 25, Fruit and Crop Ripening, is deleted in its entirety.

Chapter 26
Fumigation and Insecticidal Fogging

Chapter 26, Fumigation and Insecticidal Fogging, is deleted in its entirety.

Chapter 27
Semiconductor Fabrication Facilities

Chapter 27, Semiconductor Fabrication Facilities, is adopted in its entirety without amendments.

Chapter 28
Lumber Yards and Agro-Industrial, Solid Biomass and Woodworking Facilities

Chapter 28, Lumber Yards and Agro-Industrial, Solid Biomass and Woodworking Facilities, is adopted in its entirety with the following amendments:

Section 2801.2, Permit, is amended to read as follows:

**2801.2 Permit.** Permits shall be required as set forth in Section 105.6 and 105.6.29.

Section 2806.2, Storage site, is amended to read as follows:
2808.2 **Storage site.** Storage sites shall be level and on solid ground, elevated soil lifts or other all-weather surface. Sites shall be thoroughly cleaned and approval obtained from the fire code official before transferring wood products to the site.

Section 2808.3, Size of piles, is amended to read as follows:

**2808.3 Size of piles.** Piles shall not exceed 15 feet in height, 50 feet in width and 100 feet in length.

Exception: The fire code official is authorized to allow the pile size to be increased where a fire protection plan is provided for approval that includes, but is not limited to, the following:
1. Storage yard areas and materials-handling equipment selection, design and arrangement shall be based upon sound fire prevention and protection principles.
2. Factors that lead to spontaneous heating shall be identified in the plan, and control of the various factors shall be identified and implemented, including provisions for monitoring the internal condition of the pile.
3. The plan shall include means for early fire detection and reporting to the public fire department; and facilities needed by the fire department for fire extinguishment including a water supply and fire hydrants.
4. Fire apparatus access roads around the piles and access roads to the top of the piles shall be established, identified and maintained.
5. Regular yard inspections by trained personnel shall be included as part of an effective fire prevention maintenance program.

Additional fire protection called for in the plan shall be provided and shall be installed in accordance with this code. The increase of the pile size shall be based upon the capabilities of the installed fire protection system and features.

Section 2808.4, Pile separation, is amended to read as follows:

**2808.4. Pile separation.** Piles shall be separated from adjacent piles by minimum distance of 20 feet. Additionally, piles shall have a minimum separation of 100 feet from combustible vegetation.

Section 2808.7, Pile fire protection, is amended to read as follows:

**2808.7 Pile fire protection.** Automatic sprinkler protection shall be provided in conveyor tunnels and combustible enclosures that pass under a pile. Combustible conveyor systems and enclosed conveyor systems shall be equipped with an approved automatic sprinkler system. Oscillating sprinklers with a sufficient projectile reach are required to maintain a 40% to 60% moisture content and wet down burning/smoldering areas.

Section 2808.9, Material-handling equipment, is amended to read as follows:
2808.9 Material-handling equipment. All material-handling equipment operated by an internal combustion engine shall be provided and maintained with an approved spark arrester. Approved material-handling equipment shall be available for moving wood chips, hogged material, wood flares and raw product during fire-fighting operations.

Section 2808.11, Temperature control, is added to read as follows:

2808.11 Temperature control. The temperature shall be monitored and maintained as specified in Sections 2808.11.1 and 2808.11.2.

Section 2808.11.1, Pile temperature control, is added to read as follows:

2808.11.1 Pile temperature control. Piles shall be rotated when internal temperature readings are in excess of 165 degrees Fahrenheit.

Section 2808.11.2, New material temperature control, is added to read as follows:

2808.11.2 New material temperature control. New loads delivered to the facility shall be inspected and tested at the facility entry prior to taking delivery. Material with temperature exceeding 165 degrees Fahrenheit shall not be accepted on the site. New loads shall comply with the requirements of this chapter and be monitored to verify that the temperature remains stable.

Section 2808.12, Water availability, is added to read as follows:

2808.12 Water availability. Facilities with over 2500 cubic feet shall provide a water supply. The minimum fire flow shall be no less than 500 GPM @ 20 psi for a minimum of 1 hour duration for pile heights up to 6 feet and 2 hour duration for pile heights over 6 feet. If there is no water purveyor, an alternate water supply with storage tank(s) shall be provided for fire suppression. The water supply tank(s) shall provide a minimum capacity of 2500 gallons per pile (maximum 30,000 gallons) for piles not exceeding 6 feet in height and 5000 gallons per pile (maximum 60,000) for piles exceeding 6 feet in height. Water tank(s) shall not be used for any other purpose unless the required fire flow is left in reserve within the tank at all times. An approved method shall be provided to maintain the required amount of water within the tank(s).

Section 2808.13, Tipping area, is added to read as follows:

2808.13 Tipping area. Tipping areas shall comply with the following:

1. Tipping areas shall not exceed a maximum area of 50 feet by 50 feet.

2. Material within a tipping area shall not exceed 5 feet in height at any time.
3. Tipping areas shall be separated from all piles by a 20 foot wide fire access lane.

4. A fire hydrant or approved fire water supply outlet shall be located within 150 feet of all points along the perimeter of the tipping area.

5. All material within a tipping area shall be processed within 5 days of receipt.

Section 2808.14, Emergency Contact, is added to read as follows:

2808.14 Emergency Contact. The contact information of a responsible person or persons shall be provided to the Fire Department and shall be posted at the entrance to the facility for responding units. The responsible party should be available to respond to the business in emergency situation.

Chapter 29
Manufacture of Organic Coatings

Chapter 29, Manufacture of Organic Coatings, is adopted in its entirety without amendments.

Chapter 30
Industrial Ovens

Chapter 30, Industrial Ovens, is adopted in its entirety without amendments.

Chapter 31
Tents, Temporary Special Event Structures and Other Membrane Structures

Chapter 31, Tents, Temporary Special Event Structures and Other Membrane Structures, is adopted in its entirety without amendments.

Chapter 32
High-Piled Combustible Storage

Chapter 32, High-Piled Combustible Storage, is adopted in its entirety without amendments.

Chapter 33
Fire Safety During Construction and Demolition

Chapter 33, Fire Safety During Construction and Demolition, is adopted in its entirety without amendments.
Chapter 34
Tire Rebuilding and Tire Storage

Chapter 34, Tire Rebuilding and Tire Storage, is adopted in its entirety without amendments.

Chapter 35
Welding and Other Hot Work

Chapter 35, Welding and Other Hot Work, is adopted in its entirety without amendments.

Chapter 36
Marinas

Chapter 36, Marinas, is adopted in its entirety without amendments.

Chapter 37
Combustible Fibers

Chapter 37, Combustible Fibers, is adopted in its entirety without amendments.

Chapter 39
Processing and Extraction Facilities

Chapter 39, Processing and Extraction Facilities, is adopted in its entirety without amendments.

Chapter 48
Motion Picture and Television Production Studio Sound Stages, Approved Production Facilities and Production Locations

Chapter 48, Motion Picture and Television Production Studio Sound Stages, Approved Production Facilities and Production Locations, is adopted in its entirety without amendments.

Chapter 49
Requirements for Wildland-Urban Interface Fire Areas

Chapter 49, Requirements for Wildland-Urban Interface Fire Areas, is adopted in its entirety with the following amendments:

Section 4906.3, Requirements, is amended to read as follows:

4906.3 Requirements. Hazardous vegetation and fuels around all applicable buildings and structure shall be maintained in accordance with the following laws and regulations:
1. Public Resources Code, Section 4291.

2. California Code of Regulations, Title 14, Division 1.5, Chapter 7, Subchapter 3, Section 1299 (see guidance for implementation “General Guideline to Create Defensible Space”).

4. California Code of Regulations, Title 19, Division 1, Chapter 7, Subchapter 1, Section 3.07.

Section 4908, Fuel modification requirements for new construction, is added to read as follows:

4908 Fuel modification requirements for new construction. All new buildings to be built or installed in a Wildfire Risk Area shall comply with the following:

1. Preliminary fuel modification plans shall be submitted to and approved by the fire code official prior to or concurrently with the approval of any tentative map.

2. Final fuel modification plans shall be submitted to and approved by the fire code official prior to the issuance of a grading permit.

a. The fuel modification plan shall include provisions for the maintenance of the fuel modification in perpetuity.

4. The fuel modification plan may be altered if conditions change. Any alterations to the fuel modification areas shall have prior approval from the fire code official.

5. All elements of the fuel modification plan shall be maintained in accordance with the approved plan and are subject to the enforcement process outlined in the Fire Code.

Chapter 50

Chapter 50, Hazardous Materials - General Provisions, is adopted in its entirety with the following amendments.

Section 5001.5.2, Hazardous Materials Inventory Statement (HMIS), is amended to read as follows:

**5001.5.2 Hazardous Materials Inventory Statement (HMIS).** Where required by the fire code official, an application for a permit shall include, Orange County Fire Authority's Chemical Classification Packet, which shall be completed and approved prior to approval of plans, and/or the storage, use or handling of chemicals on the premises. The Chemical Classification Packet shall include the following information:

1. Product Name.
2. Component.
3. Chemical Abstract Service (CAS) number.
4. Location where stored or used.
5. Container size.
7. Amount in storage.
8. Amount in use-closed systems.
9. Amount in use-open systems.

Section 5003.1.1.1, Extremely Hazardous Substances, is added to read as follows:

**5003.1.1.1 Extremely Hazardous Substances.** No person shall use or store any amount of extremely hazardous substances (EHS) in excess of the disclosable amounts (see Health and Safety Code Section 25500 et al) in a residential zoned or any residentially developed property.

Chapter 51
Aerosols

Chapter 51, Aerosols, is adopted in its entirety without amendments.

Chapter 53
Compressed Gases

Chapter 53, Compressed Gases, is adopted in its entirety without amendments.

Chapter 54
Corrosive Materials

Chapter 54, Corrosive Materials, is adopted in its entirety without amendments.
Chapter 55
Cryogenic Fluids

Chapter 55, Cryogenic Fluids, is adopted in its entirety without amendments.

Chapter 56
Explosives and Fireworks

Chapter 56, Explosives and Fireworks, is adopted in its entirety with the following amendments:

Section 5608.2 Firing is hereby added to read as follows:

5608.2 Firing. All fireworks displays, regardless of mortar, device, or shell size, shall be electrically fired.

Section 5608.3 Application for Permit is added to read as follows:

Section 5608.3 Application for Permit. A diagram of the grounds on which the display is to be held showing the point at which the fireworks are to be discharged, the fallout area based on 100 feet per inch of shell size, the location of all buildings, roads, and other means of transportation, the lines behind which the audience will be restrained, the location of all nearby trees, telegraph or telephone line, or other overhead obstructions shall be provided to OCFA.

Chapter 57
Flammable and Combustible Liquids

Chapter 57, Flammable and Combustible Liquids, is adopted in its entirety with the exception of Section 5707, with the following amendment:

Section 5707 On-Demand Mobile Fueling Operations is deleted without replacement.

Section 5701.1.1 Mobile fueling is added as follows:

Section 5701.1.1 Mobile fueling. On-demand mobile fueling of Class I, II, and III liquids into the fuel tanks of vehicles is prohibited.

Chapter 58
Flammable Gases and Flammable Cryogenic Fluids

Chapter 58, Flammable Gases and Flammable Cryogenic Fluids, is adopted in its entirety with the exception of Section 5809 and with the following amendment:

Section 5801.1, Scope, is amended to read as follows:
Section 5801.1 Scope. The storage and use of flammable gases and flammable cryogenic fluids shall be in accordance with this chapter, NFPA 2 and NFPA 55. Compressed gases shall also comply with Chapter 53 and cryogenic fluids shall also comply with Chapter 55. Flammable cryogenic fluids shall comply with Section 5806. Hydrogen motor fuel-dispensing stations and repair garages and their associated above-ground hydrogen storage systems shall also be designed, constructed and maintained in accordance with Chapter 23. Mobile fueling of gaseous and liquid hydrogen, compressed natural gas (CNG), and liquefied natural gas (LNG) into the fuel tanks of vehicles is prohibited.

Exceptions:
1. Gases used as refrigerants in refrigeration systems (see Section 605).
2. Liquefied petroleum gases and natural gases regulated by Chapter 61.
4. Pyrophoric gases in accordance with Chapter 64.
5. Section 5809 Mobile Gaseous Fueling of Hydrogen-Fueled Vehicles is deleted without replacement.

Chapter 59
Flammable Solids

Chapter 59, Flammable Solids, is adopted in its entirety without amendments.

Chapter 60
Highly Toxic and Toxic Materials

Chapter 60, Highly Toxic and Toxic Materials, is adopted in its entirety without amendments.

Chapter 61
Liquefied Petroleum Gases

Chapter 61, Liquefied Petroleum Gases, is adopted in its entirety without amendments.

Chapter 62
Organic Peroxides

Chapter 62, Organic Peroxides, is adopted in its entirety without amendments.

Chapter 63
Oxidizer, Oxidizing Gases, and Oxidizing Cryogenic Fluids
Chapter 64
Pyrophoric Materials

Chapter 64, Pyrophoric Materials, is adopted in its entirety without amendments.

Chapter 65
Pyroxylin (Cellulose Nitrate) Plastics

Chapter 65, Pyroxylin (Cellulose Nitrate) Plastics, is adopted in its entirety without amendments.

Chapter 66
Unstable ( Reactive) Materials

Chapter 66, Unstable (Reactive) Materials, is adopted in its entirety without amendments.

Chapter 67
Water-Reactive Solids and Liquids

Chapter 67, Water-Reactive Solids and Liquids, is adopted in its entirety without amendments.

Chapter 80
Referenced Standards

Chapter 80, Referenced Standards, is adopted in its entirety with the following amendments:

NFPA 13, 2016 Edition, Standard for the Installation of Sprinkler Systems, is amended as follows:

Section 6.7.3 is amended to read as follows:

6.7.3 Fire department connections (FDC) shall be of an approved type. The location shall be approved and be no more than 150 feet from a public hydrant. The FDC may be located within 150 feet of a private fire hydrant when approved by the fire code official. The size of piping and the number of 2½” inlets shall be approved by the fire code official. If acceptable to the water authority, it may be installed on the backflow assembly. Fire department inlet connections shall be painted OSHA safety red or as approved. When the fire sprinkler density design requires more than 500 gpm (including inside hose stream demand), or a standpipe system is included, four 2½” inlets shall be provided.
Section 8.3.3.1 is amended to read as follows:

8.3.3.1 When fire sprinkler systems are installed in shell buildings of undetermined use (Spec Buildings) other than warehouses (S occupancies), fire sprinklers of the quick-response type shall be used. Use is considered undetermined if a specific tenant/occupant is not identified at the time the fire sprinkler plan is submitted. Sprinklers in light hazard occupancies shall be one of the following:

(1) Quick-response type as defined in 3.6.4.8
(2) Residential sprinklers in accordance with the requirements of 8.4.5
(3) Quick response CMSA sprinklers
(4) ESFR sprinklers
(5) Standard-response sprinklers used for modifications or additions to existing light hazard systems equipped with standard-response sprinklers
(6) Standard-response sprinklers used where individual standard-response sprinklers are replaced in existing light hazard systems

Section 8.15.1.2.7 is amended to read as follows:

8.15.1.2.7 Concealed spaces filled with noncombustible insulation shall not require sprinkler protection when approved by the fire code official.

Section 11.1.1.1 is added to read as follows:

11.1.1.1 When fire sprinkler systems are required in buildings of undetermined use other than warehouses, they shall be designed and installed to have a fire sprinkler density of not less than that required for an Ordinary Hazard Group 2 use, with no reduction(s) in density or design area. Warehouse fire sprinkler systems shall be designed to Figure 16.2.1.3.2 (d) curve "G". Use is considered undetermined if a specific tenant/occupant is not identified at the time the sprinkler plan is submitted. Where a subsequent use or occupancy requires a system with greater capability, it shall be the responsibility of the occupant to upgrade the system to the required density for the new use or occupancy.

Section 11.2.3.1.1.1 is added to read as follows:

11.2.3.1.1.1 The available water supply for fire sprinkler system design shall be determined by one of the following methods, as approved by the fire code official:
1) Subtract the project site elevation from the low water level for the appropriate pressure zone and multiply the result by 0.433;

2) Use a maximum of 40 psi, if available;

3) Utilize the OCFA water-flow test form/directions to document a flow test conducted by the local water agency or an approved third party licensed in the State of California.

**NFPA 13D 2016 Edition**, Standard for the Installation of Sprinkler Systems in One- and Two-Family Dwellings and Manufactured Homes is amended as follows:

Section 7.1.2 is amended to read as follows:

7.1.2 The sprinkler system piping shall not have separate control valves installed unless supervised by a central station, proprietary, or remote station alarm service.

**NFPA 14, 2013 Edition**, Installation of Standpipe and Hose Systems is amended as follows:

Section 7.3.1.1 is amended to read as follows:

7.3.1.1 Class I and III Standpipe hose connections shall be unobstructed and shall be located not less than 18 inches or more than 24 inches above the finished floor. Class II Standpipe hose connections shall be unobstructed and shall be located not less than 3 feet or more than 5 feet above the finished floor.

**NFPA 24, 2016 Edition**, Standard for the Installation of Private Fire Service Mains and Their Appurtenances is amended as follows:

Section 6.2.8.1 is added to read as follows:

6.2.8.1 All indicating valves controlling fire suppression water supplies shall be painted OSHA red.

**Exceptions:**

1. Brass or bronze valves on sprinkler risers mounted to the exterior of the building may be left unpainted.
2. Where OS&Y valves on the detector check assembly are the only control valves, at least one OS&Y valve shall be painted red.

Section 6.2.9 is amended to read as follows:
6.2.9 All connections to private fire service mains for fire protection systems shall be arranged in accordance with one of the following so that they can be isolated:

(1) A post indicator valve installed not less than 40 ft (12 m) from the building

(a) For buildings less than 40 ft (12 m) in height, a post indicator valve shall be permitted to be installed closer than 40 ft (12 m) but at least as far from the building as the height of the wall facing the post indicator valve.

(2) A wall post indicator valve

(3) An indicating valve in a pit, installed in accordance with Section 6.4

(4) A backflow preventer with at least one indicating valve not less than 40 ft (12 m) from the building

(a) For buildings less than 40 ft (12 m) in height, a backflow preventer with at least one indicating valve shall be permitted to be installed closer than 40 ft (12 m) but at least as far from the building as the height of the wall facing the backflow preventer.

(5) Control valves installed in a fire-rated room accessible from the exterior

(6) Control valves in a fire-rated stair enclosure accessible from the exterior

Section 10.1.5 is added to read as follows:

10.1.5 All ferrous pipe and joints shall be polyethylene encased per AWWA C150, Method A, B, or C. All fittings shall be protected with a loose 8-mil polyethylene tube or sheet. The ends of the tube or sheet shall extend past the joint by a minimum of 12 inches and be sealed with 2-inch wide tape approved for underground use. Galvanizing does not meet the requirements of this section.

Exception: 304 or 316 Stainless Steel pipe and fittings

Section 10.4.1.1 is amended to read as follows:

10.4.1.1 All bolted joint accessories shall be cleaned and thoroughly coated with asphalt or other corrosion-retarding material after installation.

Exception: Bolted joint accessories made from 304 or 316 stainless steel.

Section 10.4.1.1.1 is added to read as follows:
10.4.1.1.1 All bolts used in pipe-joint assembly shall be 316 stainless steel.

Section 10.4.3.2 is hereby deleted and replaced as follows:

10.4.3.2 Where fire service mains enter the building adjacent to the foundation, the pipe may run under a building to a maximum of 204 inches, as measured from the interior face of the exterior wall to the center of the vertical pipe. The pipe under the building or building foundation shall be 304 or 316 stainless steel and shall not contain mechanical joints or it shall comply with 10.4.3.2.1 through 10.4.3.2.4.

Appendices

Appendix B is adopted in its entirety with amendments outlined in Guideline B-09.

Appendices BB, C, and CC are adopted in their entirety without amendments.

SECTION 7: Findings. Pursuant to the provisions of the California Health & Safety Code Section 17958.7, it is determined that the amendments of building standards within the California Building Standards Code in this Ordinance are reasonably necessary because of local climatic, geological, or topographical conditions, and as more specifically described below.

A. FINDINGS.

I. Climatic Conditions

A. Garden Grove is located in a semi-arid Mediterranean type climate. It annually experiences extended periods of high temperatures with little or no precipitation. Hot, dry (Santa Ana) winds, which may reach speeds of 70 M.P.H. or greater, are also common to the area. These climatic conditions cause extreme drying of vegetation and common building materials. Frequent periods of drought and low humidity add to the fire danger. This predisposes the area to large destructive fires (conflagration). In addition to directly damaging or destroying buildings, these fires are also prone to disrupt utility services. Obstacles generated by a strong wind, such as fallen trees, street lights and utility poles will greatly impact the response time to reach an incident scene.

B. The climate alternates between extended periods of drought and brief flooding conditions. Flood conditions may affect the Orange County Fire Authority's ability to respond to a fire or emergency condition. Floods may also disrupt utility services to buildings and facilities within the City.
C. Garden Grove is in a suburban area which is fully developed. Water demand in this densely populated area far exceeds the quantity supplied by natural precipitation; and although the population continues to grow, the already-taxed water supply does not. California is projected to increase in population by nearly 10 million over the next quarter of a century with 50 percent of that growth centered in Southern California. Due to storage capacities and consumption, and a limited amount of rainfall future water allocation is not fully dependable. This necessitates the need for additional and on-site fire protection features.

D. These dry climatic conditions and winds contribute to the rapid spread of even small fires originating in high-density housing or vegetation. These fires spread very quickly and create a need for increased levels of fire protection. The added protection of fire sprinkler systems and other fire protection features will supplement normal fire department response by providing immediate protection for the building occupants and by containing and controlling the fire spread to the area of origin. Fire sprinkler systems will also reduce the use of water for firefighting by as much as 50 to 75 percent.

E. The local water supply is “hard” and contains high amounts of minerals which can negatively affect the plumbing used for supply and drain lines in buildings.

F. Untreated wood roofs cause or contribute to serious fire hazard and to the rapid spread of fires when such fires are accompanied by high winds. Pieces of burning wooden roofs become flying brands and are carried by the wind to other locations and thereby spread fire quickly.

II. Topographical conditions

A. Traffic and circulation congestion is an artificially created, obstructive topographical condition, which is common throughout the City.

B. These topographical conditions combine to create a situation that places fire department response time to fire occurrences at risk and makes it necessary to provide automatic on-site fire-extinguishing systems and other protection measures to protect occupants and property.

III. Geological Conditions

Garden Grove is located in a highly active seismic area in Orange County. The Orange County region is a densely populated area that has buildings constructed over and near a vast and complex network of faults that are believed to be capable of producing future earthquakes similar or greater in size than the 1994 Northridge and the 1971 Sylmar earthquakes. Earthquake faults run along the northeast and southwest boundaries of Orange County. The Newport-Inglewood
Fault, located within Orange County was the source of the destructive 1933 Long Beach earthquake (6.3 magnitude) which took 120 lives and damaged buildings in an area from Laguna Beach to Marina Del Rey to Whittier. In December 1989, another earthquake occurred in the jurisdiction of Irvine at an unknown fault line. Regional planning for reoccurrence of earthquakes is recommended by the state of California, Department of Conservation.

A. Previous earthquakes have been accompanied by disruption of traffic flow and fires. A severe seismic event has the potential to negatively impact any rescue or fire suppression activities because it is likely to create obstacles similar to those indicated under the high wind section above. The October 17, 1989, Santa Cruz earthquake resulted in one major fire in the Marina District (San Francisco). When combined with the 34 other fires locally and over 500 responses, the department was taxed to its fullest capabilities. The Marina fire was difficult to contain because mains supplying water to the district burst during the earthquake. This situation creates the need for both additional fire protection and automatic on-site fire protection for building occupants. State Department of Conservation noted in their 1988 report (Planning Scenario on a Major Earthquake on the Newport-Ingleswood Fault Zone, page 59), “unfortunately, barely meeting the minimum earthquake standards of building codes places a building on the verge of being legally unsafe.”

B. Road circulation features located throughout the County also make amendments reasonably necessary. Located through the City are major roadways, highways and flood control channels that create barriers and slow response times. Street and storm drain design, accompanied by occasional heavy rainfall, causes roadway flooding and at times may make an emergency access route impassable.

C. Portions of the County near Garden Grove contain active or former oil production fields. These areas contain a variety of naturally occurring gasses, liquids and vapors. These compounds present toxicity or flammability hazards to building occupants. Evaluation of these hazards and the risks they pose to development is necessary for implementation of appropriate mitigation.

D. The viability of the public water system would be questionable after a major seismic event. This would leave tall buildings vulnerable to uncontrolled fires due to a lack of available water and an inability to pump sufficient quantities of any available water to floors above the 75-foot level.

Due to the topographical conditions of sprawling development separated by waterways and narrow and congested streets and the expected infrastructure damage inherent in seismic zones described above, it is prudent to rely on
automatic fire sprinkler systems to mitigate extended fire department response time and keep fires manageable with reduced fire flow (water) resources available for a given structure. Additional fire protection is also justified to match the current resources of firefighting equipment and personnel within the Orange County Fire Authority.

### B. APPLICATION OF FINDINGS TO AMENDMENTS TO CALIFORNIA BUILDING STANDARDS CODE.

**SECTION 8:** Filing with the California Building Standards Commission. A copy of this Ordinance shall be filed with the California Building Standards Commission by the City Clerk of the City of Garden Grove as required by Health & Safety Code Section 17958.7.
SECTION 9: Severability. If any section, subsection, subdivision, sentence, clause, phrase, or portion of this Ordinance is, for any reason, held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance. The City Council hereby declares that it would have adopted this Ordinance and each section, subsection, subdivision, sentence, clause, phrase, or portion thereof, irrespective of the fact that any one or more section, subsection, subdivision, sentence, clause, phrase, or portion thereof be declared invalid or unconstitutional.

SECTION 10: The Mayor shall sign and the City Clerk shall certify to the passage and adoption of this Ordinance and shall cause the same, or the summary thereof, to be published and posted pursuant to the provisions of law. This Ordinance shall take effect thirty (30) days after adoption, or January 1, 2020, whichever is later.

The foregoing Ordinance was passed by the City Council of the City of Garden Grove on the 12th day of November 2019.

ATTEST: /s/ STEVEN R. JONES

/s/ TERESA POMEROY, CMC
CITY CLERK

STATE OF CALIFORNIA )
COUNTY OF ORANGE ) SS:
CITY OF GARDEN GROVE)

I, TERESA POMEROY, City Clerk of the City of Garden Grove, do hereby certify that the foregoing Ordinance was introduced for first reading and passed to second reading on October 22, 2019, with a vote as follows:

AYES: COUNCIL MEMBERS: (6) BRIETIGAM, O’NEILL, BUI, KLOPFENSTEIN, NGUYEN K., JONES
NOES: COUNCIL MEMBERS: (0) NONE
ABSENT: COUNCIL MEMBERS: (1) NGUYEN T.

and was passed on November 12, 2019, by the following vote:

AYES: COUNCIL MEMBERS: (7) BRIETIGAM, O’NEILL, NGUYEN T., BUI, KLOPFENSTEIN, NGUYEN K., JONES
NOES: COUNCIL MEMBERS: (0) NONE
ABSENT: COUNCIL MEMBERS: (0) NONE

I declare under penalty of perjury that the foregoing instrument is a full, true and correct copy of the original on file in this office.

ATTEST: /s/ TERESA POMEROY, CMC

TERESA POMEROY, CMC, City Clerk
City of Garden Grove
DATED: April 30, 2020
